PROFESSIONAL SUMMARY

System Engineer with hands-on experience in IT infrastructure, network support, and system administration for enterprise environments. Skilled in troubleshooting, root-cause resolution, and access management across 25-75+ end-user systems, with a strong focus on minimizing downtime and service reliability. Continuously building expertise in cloud computing and emerging technologies, aiming to grow into advanced system and network engineering roles.

PROFESSIONAL EXPERIENCE

System Engineer

Oct 2025 - Present

Glosil International Private Limited

- Install, configure, and maintain Windows-based systems across 25-75 end-user devices, ensuring consistent uptime and infrastructure reliability.
- Resolve 10-25 hardware, software, and network issues weekly through root-cause troubleshooting, minimizing downtime.
- Manage user accounts, permissions, and access controls for 25-75 employees, maintaining system security and compliance.
- Support LAN/WAN connectivity across 3-5 locations, diagnosing and resolving network issues to maintain uptime.
- Install and configure CCTV surveillance systems (30+ cameras across multiple sites) for enhanced physical security.
- Execute daily backup and data security procedures, safeguarding business data against loss.
- Perform routine system updates and monitoring across 25-75 devices, improving performance and reducing recurring issues.
- Maintain technical documentation and support logs, improving issue-tracking accuracy and team knowledge-sharing.

TECHNICAL SKILLS

- Infrastructure & Support: Windows OS Administration, System Installation & Configuration, Performance Monitoring & Optimization
- Networking: LAN/WAN Support, Network Troubleshooting, Connectivity Management
- Security & Access: User Access Control, Data Security, CCTV Installation & Surveillance Systems
- Cloud & Emerging Tech: Cloud Computing Fundamentals, AI Concepts, IT Infrastructure Trends
- Tools: Microsoft 365, MS Excel, Windows Server Environment
- Programming: Python, Java, SQL, HTML/CSS

EDUCATION

B.Sc. Information Technology

2022 - 2025

CMS College of Science and Commerce, Coimbatore | CGPA: 8.64

PROJECTS

Real-Time Messaging Application

- Built a web-based, real-time chat application in Python using Flask-SocketIO (WebSocket communication), featuring user login and live message exchange.
- Independently designed and implemented backend logic (authentication, real-time connection handling) and browser-based frontend interaction.

CERTIFICATIONS

- AI Concepts - Microsoft
- Cloud Computing Fundamentals - Microsoft
- Python Programming - Great Learning
- Java Programming - Great Learning
- Microsoft Excel - Microsoft
- Data Analysis Fundamentals - Microsoft

INTERNSHIP

IT Operations Intern

Infosys BPM

- Gained exposure to enterprise IT workflows and professional communication practices in a corporate environment.

ACHIEVEMENTS

- Winner - Covai-in Marathon, 2023
